PROFESSIONAL SUMMARY

Frontend Developer with experience developing responsive web applications using React, TypeScript, JavaScript, Tailwind CSS, Mantine, and Firebase. Experienced in building reusable UI components, integrating backend services and APIs, implementing responsive interfaces, and refactoring component architectures for maintainability.

WORK EXPERIENCE

Simplevia Technologies Inc. - Pasig City, Philippines

Frontend Developer Intern | 1,040 hours
(January 2026 – June 2026)

- Developed a responsive B2B school management system frontend using React, TypeScript, and Tailwind CSS, implementing multi-level navigation and tab-based workflows for complex application interfaces.
- Refactored the React component architecture across 7 feature modules, reducing component duplication and improving maintainability for future feature development.
- Translated UI/UX designs into reusable, production-ready React components using Mantine and Tailwind CSS, maintaining consistent responsive layouts across screen sizes.

PROJECTS

Pasig Knowledge Center - Pasig City, Philippines

Full Stack Developer | Capstone Project
(December 2024 – September 2026)

- Developed a full-stack digital library management system for Pasig Knowledge Center, implementing automated circulation, cataloging, user management, and real-time asset tracking through barcode and NFC integration.
- Built responsive frontend interfaces using React, TypeScript, Vite, and Tailwind CSS, developing reusable components and cross-browser compatible layouts.
- Implemented backend services with Firebase Authentication, Firestore, and Cloud Functions to support real-time data synchronization and application workflows.

EDUCATION

FEU Institute of Technology | Manila, Philippines

Bachelor of Science in Information Technology, Specialization in Web and Mobile Applications
(August 2022 – September 2026)

CERTIFICATIONS

- **Information Technology Specialist** - HTML & CSS · JavaScript · Networking · Python (Certiport, 2024-2025)
- **Cisco Certified Support Technician** - Cybersecurity (Cisco, 2024)
- **PMI Project Management Ready** (PMI, 2025)
